

Health Care Centered Around You

CVMG is pleased to be named a Centers for Medicare & Medicaid Services (CMS) Direct Contracting Entity (DCE). The CVMG Direct Contracting Entity is an innovative program that was designed for Original Medicare Fee for Service beneficiaries to provide greater continuity of care between physicians and facilities treating the patient for better health outcomes. Aligning with CVMG's DCE program does not change Original Medicare benefits: beneficiaries always have the freedom to choose any doctor, hospital or provider that accepts Medicare.

What is a DCE?

A DCE is a group of doctors, hospitals, and other healthcare providers who agree to work together to keep Medicare patients healthy. CVMG providers agree to work together to see that beneficiaries get the right care at the right time. CVMG helps providers work together to give beneficiaries better care. CVMG coordinates patient care according to individual medical needs and treatment choices. CVMG protects beneficiary medical records and privacy and works to reduce duplicate tests and duplicate paperwork that cost beneficiaries time and money.

For questions about the DCE program or to enroll, call CVMG at **(209) 800-CVMG (2864)**

<p><input checked="" type="checkbox"/> Disease Management Reward Program</p> <p>Gift card incentive to aligned beneficiaries for participation in a chronic disease management program.</p>	<p><input checked="" type="checkbox"/> Care Management Home Visits</p> <p>These visits will help prevent hospitalization of at-risk beneficiaries.</p>	<p><input checked="" type="checkbox"/> Remote Patient Monitoring</p> <p>Digital device monitors beneficiary's weight, blood pressure, blood sugar, and/or heart rate to transmit data from patient home to physician.</p>	<p><input checked="" type="checkbox"/> Post Discharge Home Visits</p> <p>Provides post-discharge services to help ease transition to home and help prevent readmission.</p>
